STAT

Memorandum for: Chief,

STAT

Attention:

There are attached herewith lists of personnel of certain diplomatic missions which have been supplied to me by the Internal Security Subcommittee of the Senate Judiciary Committee with a request for any information which we may have concerning persons listed. As you will note, some of them are American employees of these missions, and therefore we will, of course, have no information concerning them.

If you finish one country list ahead of another, would you please send it along to me rather than waiting until all the lists are completed.
